Mandate of the Oslo Group on Energy Statistics

The Oslo Group on Energy Statistics is:

"To address issues related to energy statistics and contribute to improved international standards and improved methods for official energy statistics by pooling expertise in the energy community.

Actions:

- To identify users' needs
- To define scope of official energy statistics
- To identify and collect national and international best practices
- To review and contribute to the updating of UNSD handbooks and manuals on energy statistics
- To identify gaps in coverage (e.g. fuel types, flows) and to develop methodology to cover gaps
- To adopt link or develop bridges to international standard concepts and classifications in economic/environment statistics to facilitate the integration and interface of energy statistics with other statistical systems
- To recommend a core set of tables as minimum requirement at national and international level to satisfy major user needs."
