

IPPNW- International Physicians for Prevention of Nuclear War,

Tordis Sørensen Høifødt, leader Norwegian affiliate psychiatrist, University Hospital Northern Norway, UNN

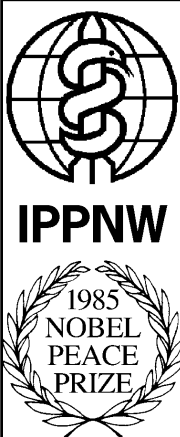

Norske Leger mot Atomvåpen

Outline of presentation

- The international organisation, IPPNW
- The Norwegian affiliate
- How can/ do physicians work in relationship to war, peace and health issues?

Norske leger mot atomvåpen

2

IPPNW International Physicians for Prevention of Nuclear War

- Founded by an American (Bernard Lown) and a Russian (Eugeni Chazov) heart specialists in 1980
- About 60 000 members, physicians, medical students in 58 countries
- Received the Nobel Peace Prize in 1985

3

IPPNW

- IPPNW is the only international medical organization dedicated to preventing nuclear war and abolishing nuclear weapons. We recognize that the catastrophic health and environmental consequences of a nuclear war are at the extreme end of a continuum of armed violence that undermines health and security.
- IPPNW is committed to ending war and advancing understanding of the causes of armed conflict from a public health perspective.

Norske leger mot atomvåpen

4

IPPNW's highest priority programs and campaigns are:

- The International Physicians Campaign for a Nuclear-Weapons-Free World
- Aiming For Prevention: An International Campaign to Prevent Small Arms Violence
- Research, education, and advocacy on the interconnections between peace and health

Norske leger mot atomvåpen

5

Currently: **ICAN** (International Campaign to Abolish Nuclear Weapons)

- International campaign to spread knowledge about dangers of nuclear weapons and its use to promote a broad public opinion to support an international convention to abolish nuclear weapons.
- Coordinated from main office IPPNW in USA and IPPNW Australia.

Norske leger mot atomvåpen

6

The Norwegian affiliate Who are we?

- About 850 physicians and 150 medical student members
- Student groups in Oslo, Bergen, Trondheim and Tromsø

Norske leger mot atomvåpen

7

Our vision: A safer world without nuclear weapons

Norske Leger mot Atomvåpen

What do we do and how do we work?

Norske leger mot atomvåpen

9

Spread knowledge about consequences of nuclear weapons and nuclear war

Norske leger mot atomvåpen

10

Scientific approach- medical consequences?

- What are the consequences of nuclear war?
- Consequences of war in Iraq?- Collateral damage, 3 reports from Medact in Britain
- Consequences of the Tjernobyl accident?
- Damage from weapons with depleted uranium?

Norske leger mot atomvåpen

11

Spread knowledge about consequences of nuclear weapons and nuclear war

- Talk to students, physicians and the public, give information, ask questions and make dialogues.
- Talk to politicians and decision-makers. Ask questions and make dialogues.

Norske leger mot atomvåpen

12

" Nuclear Weapons Inheritance Project"

Students talk to students in nuclear weapons states:

- What do they know about their country having nuclear weapons?
- What do they think about that?
- How do they look upon taking over that inheritance?

Norske leger mot atomvåpen

13

"Dialogue with decision-makers"

- Physicians and students take part in delegations going to the nuclear weapon states
- At the same time as the meetings go on out in the world, physicians and students in Norway visit the embassies of the same countries, making dialogues.

Norske leger mot atomvåpen

14

Peace through health

- What do students in health professions in Norwegian universities learn about consequences of violence, torture, war and violation of human rights?
- We want these issues to be focused and try to put them on the agenda.

Norske leger mot atomvåpen

15

Norwegian campaign for a nuclear weapons convention

The campaign is a cooperation between IPPNW Norway (NLA), The Norwegian Pugwash-committee and the Norwegian grass root movement No to Nuclear Weapons (NTA).

Norske leger mot atomvåpen

16

Working against small arms

- Small arms represent a big problem for health in many parts of the world
- IPPNW in Africa has a special focus on small arms. The Norwegian affiliate has special collaboration with Zambia and Uganda on projects to prevent spreading and damage from small arms.

Norske leger mot atomvåpen

17

Students engagement

- Projects:
NWIP
ReCap- Refugee project Palestine
- Papers for medical school and presentations

Norske leger mot atomvåpen

18

International network of students and doctors

- Meetings, conferences with exchange of ideas, collaboration and engagement.
- Collaboration with other peace organizations
- Building friendship across borders

- Thank you for your attention
