

Curriculum Vitae

Jens Oluf Andersen

March 16, 2007

Personal details

Surname: Andersen
First name: Jens Oluf
Address: Lindegårdsvej 11, 2920 Charlottenlund, Denmark
Phone (home): +45 39 63 08 12
Phone (Work): +45 35 32 55 03
E-mail: jensoa@nordita.dk
Date and place of birth: May 20, 1966, Ringsted, Denmark.
Citizenship: Danish.

Education

1989: Bachelor of Science from University of Oslo, Norway
1992: Master of Science from University of Oslo, Norway
1997: Ph.D. from University of Oslo, Norway 1997.

Positions

1992-1997: Research Assistant, University of Oslo, Norway
1997-2000: Postdoctoral Research Associate, Ohio State University, USA
2000-2002: Postdoctoral Research Associate, University of Utrecht, The Netherlands
2003-fall 2005: Postdoctoral Research Associate, Nordita, Copenhagen, Denmark
Fall 2003: Visiting Scientist, Vrije Universiteit Amsterdam, The Netherlands
Fall 2005-: Professor, Norwegian University of Science and Technology

Language skills

Danish: fluent (mother tongue)
Norwegian: fluent (mother tongue)
English: very good
German, dutch: fair

Conference proceedings

- J. O. Andersen, Hard Thermal Loops and QCD Thermodynamics, Talk given at SEWM 2002 Heidelberg, Germany, October 2-5, 2002. hep-ph/0210195.
- J. O. Andersen, Three Loop Free Energy using Screened Perturbation Theory, Talk given at SEWM Marseille June 14-17 2000. In Proc. SEWM 2000, 142, (2001).
- J. O. Andersen, Thermal Field in Equilibrium, Invited talk given at the 5th workshop in QCD, Villefranche-sur-Mer, France January 3-7 2000. In Proc. 204, (2000),
- J. O. Andersen, Free Energy of a Hot gluon Plasma and Hard-thermal-loop Resumation, Proc. of 15th International Conference on Particle and Nuclei (PANIC 99), Uppsala, Sweden, June 10-16 1999, Nucl. Phys. **A663** & **664**, 733, 2000.

Invited Talks

- QCD Thermodynamics and Hard Thermal Loops, Theoretical Physics Colloquium, Dept. of Physics, Freie Universität Berlin, June 7 2004.
- Bose Condensates, General colloquium, Dept. of Phys. NTNU, Trondheim Norway, February 20 2003.
- QCD Thermodynamics and HTL perturbation theory, Dept. of Phys. NTNU, Trondheim Norway, February 18 2003.
- Low-temperature Bose gases. 11th International Laser Physics Workshop 2002 (LPHYS'02), Bratislava, Slovakia, July 2 2002.
- Low-temperature Bose gases. NTNU, Trondheim, April 3 2002.
- Hard-thermal-loop Improved Thermodynamics for QCD, University of Marseilles and CERN, June 18 and 21 2001.
- The Phase diagram of QCD, University of Oslo, Norway, April 18 2001.
- Three-loop Free Energy using Screened Perturbation, Hot non-perturbative particle physics, Trondheim, Norway, October 28 2000.
- Hard-thermal-loop Perturbation Theory and the Free Energy of a Hot Gluon Plasma, Purdue University, February 2000.
- Thermal field theory, 5th Workshop on QCD, Villefranche Sur-Mer, France, January 3-7 2000.
- Semiclassical corrections to the oscillation frequencies of a Bose-Einstein condensate. University of Utrecht, The Netherlands, November 30 1998.

Lectures

- Introduction to Bose-Einstein Condensation (three lectures), University of Oslo, Norway, 6-10 October 2003.

Talks/Presentations

- Bose-Einstein condensates, General Colloquium, Nordita, Denmark April 1, 2004.
- High-temperature QCD and resummation, Vrije Universiteit, The Netherlands, November 20 2003.
- Hard Thermal Loops and QCD Thermodynamics, SEWM 2002, Heidelberg, Germany, October 2-5 2002.
- Low-dimensional Bose gases, University of Oslo, Norway April 5 2002.
- Hard-thermal-loop perturbation theory for a quark-gluon plasma, Nordita, Copenhagen, Denmark, January 15 2002.

- Low-dimensional Bose gases, Nordita, Copenhagen, Denmark, January 14, 2002.
- Bose-Einstein Condensation and Effective Field Theory, University of Oslo, Norway, April 20 2001.
- Thermodynamics of High-temperature QCD, University of Oslo, Norway, April 19 2001.
- Hard-thermal-loop Resummation of the Thermodynamics of QCD, ITF, University of Utrecht, The Netherlands, September 29 2000.
- Semiclassical Corrections to the Oscillation Frequencies of a Trapped Bose-Einstein Condensate, NORDITA meeting on Low-Dimensional Physics in Solids and Trapped Atoms, Copenhagen, Denmark, August 31 2000.
- Three-loop free energy using screened perturbation theory, SEWM 2000, Marseille, France, June 14-17 2000.
- Bose-Einstein condensation of atoms in harmonic traps. NTNU Trondheim, Norway, December 1999.
- Hard-thermal-loop perturbation theory for a quark-gluon plasma, Brookhaven National Laboratory, November 1999.
- Hard-thermal-loop resummation of the free energy of a hot gluon plasma, University of Heidelberg, Germany, NORDITA, Copenhagen, Denmark, PANIC conference Uppsala, Sweden, and CERN, Geneva, Switzerland, June 1999.
- Hard-thermal-loop resummation of the free energy of a hot gluon plasma, Indiana University, Bloomington, April 1999.
- Bose-Einstein condensation of atoms in harmonic traps. University of Oslo Norway, December 1998.
- Application of Renormalization Group Techniques to a Homogeneous Bose Gas, Workshop on Quantum Fields in and Out of Equilibrium, Brookhaven National Laboratory, October 1998.
- Renormalization Group Treatment of a nonrelativistic Bose Gas at Finite Temperature, NORDITA, Copenhagen, Denmark, University of Bielefeld, Germany, and University of Oslo, Norway, August 1998.
- Effective field theories at finite temperature, Ohio State University, September 1997.
- Effective field theories at finite temperature, Fall meeting Norwegian Physical Society, Utstein, Norway, November 1996.
- Magnetization in 2+1 dimensional QED at finite temperature and density, Fall meeting Norwegian Physical Society, Utstein, Norway, November 1994.
- Resummation of ring diagrams, NORDITA, Copenhagen, August 1993.
- Structure calculations and lifetimes in atomic Nitrogen, Fall meeting Norwegian Physical Society, Utstein, Norway, November 1992.

Workshops/Conferences

- Strong and Electroweak Matter 2004, Helsinki, Finland, June 16-19, 2004
- Bose-Einstein Condensation, San Feliu, Spain, September 13-18 2003.
- Levico Workshop on BEC, June 12-14 2003, Trento, Italy.
- Strong and Electroweak Matter 2002, Heidelberg, Germany, October 2-5 2002.
- 11th International Laser Physics Workshop 2002 (LPHYS'02) Bratislava, Slovakia, July 1-5 2002.
- Wetenschappelijk Vergadering Werkgemeenschap voor Statistische Physics, Lunteren, The Netherlands, February 1-2 2001.
- Huygens Vaksymposium, Quantum gases, Amsterdam, The Netherlands, November 8 2000.
- Hot non-perturbative particle physics, Trondheim, Norway, October 28 2000.
- NORDITA meeting on Low-Dimensional Physics in Solids and Trapped Atoms, Copenhagen, Denmark, August 31-September 2 2000.
- Strong and Electroweak Matter 2000, Marseilles, France, June 14-17 2000.
- 5th Workshop on QCD, Villefranche-sur-Mer, France, January 3-7 2000.
- Nonequilibrium Dynamics in Quantum Field Theory, INT, Seattle, USA, October 4-December 16 1999.
- QCD in Extreme Conditions, Aspen, USA, August 16 - September 12 1999.
- 15th International Conference of Particle and Nuclei (PANIC 99), Uppsala, Sweden, June 10-16 1999.
- Strong and Electroweak Matter (SEWM 98), Copenhagen, Denmark, December 2-5 1998.
- Quantum Fields in and Out of Equilibrium, Brookhaven National Laboratory, October 26-30 1998.
- Bose-Einstein Condensation, July 12-17, Castelvechio Pascoli, Italy, 1997.

Poster presentations

- J. O. Andersen and M. Strickland, Critical Behaviour of a Homogeneous Bose Gas at Finite Temperature, hep-ph/9808346. Proc. of the 5th International Workshop on Thermal Field Theories and Their Applications, Regensburg, Germany, August 10-14 1998.

Referee

- I am refereeing papers for Physics Letters A, Journal of High Energy Physics, Journal of Physics B, European Physics Journal B, Europhysics Letters, Nuclear Physics B and Physical Review A, B and D, Physical Review Letters, and Rep. Prog. Phys.

Teaching experience

I have been a teaching assistant in undergraduate and graduate courses:

- General physics.
- Classical mechanics.
- Group theory.
- Quantum field theory.

Students

- I was the co-supervisor for M. Romans on his master thesis “Dimensional crossover in homogeneous Bose gases”, ITP, Utrecht University 2002.
