

Innovative thinking is vital to everything we do

FMC Technologies

FMC Technologies is the world's largest supplier of real-world solutions to the oil and gas industry. What was impossible yesterday we make it a reality today. To make the impossible also practical is not easy. It requires humility and respect. Therefore, our staff is our most important asset.
Would you like to join us?

We are currently looking for:

- **Technical Safety and Reliability Engineer**
  (Ref. no. 696/06)
