14:15-15:00 (14:00-15:00 on Friday)	Theoretical and conceptual platform ²⁾	Case study: Transport. <i>Prof Odd I Larsen/Associate Prof Svein Bråthen, HiMolde</i>	Valuation and Use: Traffic Safety <i>Chief Researcher Rune Elvik, TØI</i>	Real option values <i>Associate Prof Sigbjørn Sødal, HiA</i>	Student presentations
15:15-16:00	Theoretical and conceptual platform ²⁾	Case study: Transport.	Valuation and Use: Traffic Safety	Real option values	Summary (finished at 15:45)
16:15-17:00	Theoretical and conceptual platform ²⁾	Case study: Transport.	Valuation and Use: Traffic Safety	Real option values	
17:00-18:00	DINNER	DINNER		DINNER	
19:00			DINNER		

- 1) Each student will receive one research paper that should be presented to the audience. The papers will be sent out within one week before the course starts, and the presentations will be scheduled.

- 2) The sections will cover topics like consumer and producer surplus measures, efficiency and equity, opportunity costs, imperfect markets, external effects, network effects, public goods, cost-efficiency analysis, valuation of non-market goods like the value of time, and how to handle constraints with respect to basic rights and politics. *Lectures given by Prof Arild Hervik, Prof Odd I Larsen and Associate Prof Svein Bråthen, HiMolde.*
- 3) There will be a Course Dinner on Wednesday at 19:00h.
