Guidelines for the notification of change in ownership/merger

Fields marked ▶ must be filled in
Fields marked ● fill in if relevant

Form
This form is a notification of transfer of a trademark, design or patent.
The changes will only be registered if the form is filled in correctly. If the form is inadequately completed, the transfer will not be registered and a new form must be submitted. It is sufficient to send a copy of the form as long as all the information contained therein is legible.

▶ **Subject area**
Indicate whether a trademark, design or patent has been transferred. Separate forms must be submitted if the holder wishes to notify of transfers of different kinds of intellectual property rights.

▶ **Application/Registration number**
To record a transfer, the application, registration or patent number must be submitted. Also state the name of the trademark, design or patent.

● **Partial change in ownership**
It is possible to transfer a design partially. Please check the box if the notification is of such a transfer. Documentation must be attached, clearly specifying what the transfer covers. It is also possible to divide a trademark application, and transfer each unit as a total transfer of a divided right. Partial transfers of patents and registered trademarks are not permitted.

● **Merger**
Check box if the transfer follows a company merger.

▶ **Former holder (transferor)**
Enter the full name and address of the holder as shown on our records. Please submit the holder/transferor's customer ID (optional) if he has been a customer at the Norwegian Patent Office.

▶ **New holder (transferee)**
Enter the full name and address of the new holder. Please submit the holder/transferee customer ID (optional) if he has been a customer at the Norwegian Patent Office.

● **Change of representative**
Check box if the change of ownership results in a change of representative.
Change of representative must be submitted on separate forms. These are downloadable at www.patentstyret.no and must be submitted before sending in this form.

● **Attachments**
If the assignment consists of several trademarks, designs or patents, please check the attachment box and add a separate list.
A power of attorney form must be attached if the assignee does not reside in Norway.
Documentation of the transfer is not required. Check the attachment box if such documentation is submitted. Any documentation exceeding 15 pages must be submitted electronically on disk or CD-ROM.

▶ **Sender and signature**
Please state name or company name of the sender in typed or capital letters or by using a stamp. A notification regarding change of ownership/merger concerning an application may only be signed and sent by the registered applicant or his representative.
When a design or a trademark is registered or a patent is granted, the registerd holder, the new owner or their representative may sign and submit the form. If available, include your reference concerning this notification.
