HELSE BERGEN - IT'S ALL ABOUT PEOPLE
Haukeland University Hospital

Updated Aug 2013

Helse Bergen
Department of International Collaboration (DIC)

- Established in October 2003
- 20-30 personnel, mainly in Africa
- Reports directly to the hospital management
- Coordinates a steadily increasing number of international projects
- Mainly self financed (operating costs in 2012, 31 mill. NOK)

Objectives
Department of International Collaboration (DIC)

- Personnel administration and service- function to health development projects
- Offering competence concerning health development projects
- Providing practical/political information about situation in developing countries
- Contact with donor organizations
- Relieve clinical personnel for administrative work

Our main focus in projects

- Competence building (on-the-job-training)
- Personnel exchange
- Specialist training
- Clinical engineering personnel and equipment
- Basic/advanced education of health personnel
- Personnel recruitment to partner institutions in South

Value to own organization

- Competence building and volume training
- Enthusiasm among our employees
- Local community involvement and positive reputation
- Perception of reality
- Promotes collaboration across disciplines and professions
